Josh Gumperz

Berkeley, 94708 ▪ (510) 586-8129 ▪ joshgumperz@gmail.com

Skills & Qualifications

- Designing web-applications with HTML/CSS
- JavaScript
- Frontend development technologies such as React & Redux
- Backend development technologies such as Node.js & Express.js
- Relational & non-relational database management systems such as MySQL & MongoDB

Experience

Oqlus360, CA – December 2021 - present
Junior Web Developer

- Works as a dev team member using React & Redux to implement the UX/UI design, ensuring clean aesthetics as well as responsiveness and accessibility.
- Collaborates with the QA team to ensure the site meets the criteria for use by an average user.
- Responsible for making restful API calls & database queries for the purpose of implementing front-end functionality across the codebase.

Showingly, CO – September 2021 - December 2021
Web Development Intern

- Assists in front-end software maintenance across codebase.
- Responsible for edge case testing and front-end quality assurance.
- Works as a member of the Showingly dev team following best practices for team-based development.

Projects

Tech Blog – July 2021

- Built with HTML/CSS, JavaScript, jQuery, Node.js, MySQL, and more, the Tech Blog serves as a blog website that allows users to create accounts, create/update/delete blog posts, view and reply to other user's blog posts all while utilizing a clean, user friendly UI. https://github.com/JoshGumperz/tech-blog

Arcaderunner – August 2021

- Built with React, Node.js, MySQL, and more, Arcaderunner is an 80s themed game hosting platform. Arcaderunner aims to provide the user with a fun and immersive gaming experience. https://github.com/ts795/arcaderunner

Education & Training

UC Berkeley Extension Coding Bootcamp, Berkeley, CA – June 2021 - September 2021
UC Berkeley Extension Coding Bootcamp Graduate

- The Berkeley Coding Boot Camp comprises a series of lectures designed to teach students the skills of a full-stack web developer. Training Modules Include: building front-end sites that feature responsive & interactive layouts such as forms, quizzes and games, back-end command-line programs, and database management.
